### **Trilogy Solutions Achieves Gold Linux Specialist Status from Novell PartnerNet with a Focus on SUSE Linux Enterprise 11 from Novell**

**CRANBURY, NJ, April 2, 2009** -- Trilogy Solutions, LLC, today achieves Gold Linux Specialist Status from Novell and expands its support and focus for SUSE Linux Enterprise 11 from Novell, the Linux platform that drives mission-critical computing from the desktop to the data center, for physical and virtual environments.

Trilogy Solutions has invested in Novell by becoming authorized and certified to support SUSE Linux Enterprise 11. Through advanced technical training, Trilogy Solutions continues to invest in its Novell relationship to ensure the ability to provide enhanced customer solutions delivery.

"We provide our customers with complete solutions, including proven innovations to help our customers combine maximum reliability, performance and interoperability with the lowest cost of ownership," said Mark Darlington, COO of Trilogy Solutions. "SUSE Linux Enterprise 11 helps us deliver the most robust, cost-effective solutions for our customers' most pressing business needs. Combining our in-depth data center expertise with the strength of the SUSE Linux Enterprise 11 platform allows us to pinpoint and solve key customer needs, such as reducing cost, improving performance and reliability, and increasing flexibility."

Delivering significant advancements for server, desktop, virtualization and configurable appliances across physical and virtual IT environments, SUSE Linux Enterprise 11 is an ideal platform for the business realities of today's heterogeneous environments. Novell and Trilogy Solutions deliver a rich set of services and technologies that enable enterprises to benefit from reliable and affordable solutions for the next-generation IT infrastructure. As a newly appointed Gold Linux Specialist member of Novell PartnerNet specializing in Linux, Trilogy Solutions is providing assessing, porting and implementation services for SUSE Linux Enterprise 11.

"We have shifted our company strategy to a partner-centric model. This can only be achieved through a strong, well-supported partner ecosystem. Our industry-leading partner program, which includes robust sales and marketing support to help our partners drive revenue and increase profitability, is further enhanced through the release of SUSE Linux Enterprise 11," said Steve Hale, vice president and data center channel leader, Novell. "SUSE Linux Enterprise 11 is an outstanding example of Novell delivering solutions that enable our partners to help customers reduce cost, manage complexity and mitigate risk in these tough economic times."

Trilogy Solutions has been selected as the Premier Solution Provider at the Americas Data Center Tour stop in New York City on April 7. For more information and to register for this event please visit <http://www.novell.com/events/tours/datacenter/newyork.html>
